路标 ROAD SIGN

路标内置磁性组件，通过与地台的磁吸实现稳固连接，有效提升装配效率并保障结构固定可靠性。

The road sign is equipped with built-in magnetic components. It achieves a stable connection through magnetic attraction with the base, which effectively improves assembly efficiency and ensures the reliability of structural fixation.

贴纸 STICKER

本产品随附专属贴纸1张。
This product comes with 1 exclusive sticker.

支架、机甲脚部、站姿可洛基脚底也附带了磁性组件。

The stand, the mecha's feet, and the soles of the standing-pose Colaji figure are also equipped with built-in magnetic components.

可洛基 COLAJI

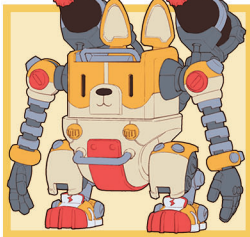

可洛基在家里四兄弟里面排老二，是一只活泼好动的汪汪族，平时特别喜欢玩游戏跟大家追逐打闹，尤其是扮演猎人的角色去追着小伙伴们，玩累了，就会掏出它最喜欢的饮料“可狗可洛”，可洛基可以一次性喝完4瓶的哦（但不建议各位小伙伴模仿）

Colaji is the second oldest among his four brothers at home. He's an energetic and lively member of the "Woof Pack" who loves playing games and chasing around with everyone in his free time—especially when he gets to pretend to be a hunter and chase the little pups! When he's worn out from all the fun, he'll pull out his favorite drink, Kegou Keluo, and can even finish 4 bottles in one go (though we don't recommend other little friends copy this!).

活跃者 KJ-052

因为可洛基好玩的天性，加上喜欢喝可狗可洛，所以汪国基地为他专门定制了一台第四世代战斗机甲——【活跃者】代号KJ-052，为了汪汪族的和平，可洛基将驾驶着活跃者冲向前线~

Thanks to Colaji's playful nature and love for Kegou Keluo, the Canine Kingdom Base has custom-built a 4th-Generation Combat Mecha specifically for him—the "Vivacious Warrior" with the code name KJ-052. To safeguard the peace of the Woof Pack, Colaji will pilot the Vivacious Warrior and charge onto the frontlines!

帽子均采用磁吸佩戴方式

可互换 Interchangeable

站姿可洛基 Standing

坐姿可洛基 Sitting

头、帽子、眼睛可相互替换

Heads, hats, and eyes are fully interchangeable.

本产品包含可洛基站姿、坐姿两只素体，头部、帽子与可动眼支持互换安装设计，有效展示更多的形态。

This product includes two action figures of Colaji—one in a standing pose and the other in a sitting pose. The head, hat, and articulated eyes support an interchangeable installation design, effectively allowing for the display of more configurations.

可洛机枪 CO-1885 KOLA MACHINE GUN CO-1885

通过高速旋转前端来进行连续射击。还可以填充中间的能量爆发装置“快妥思”。每消耗一个即可射出超强威力的必杀技“致命穿心”/“百氏毁灭”。

It can perform continuous shooting by rotating its front end at high speed. The intermediate energy burst device "Kuaitousi" can also be loaded. Each consumption of one allows it to launch the super powerful special moves "Deadly Heart Piercing" / "Baishi Annihilation".

可洛基长长的双手可以握起枪械与武器。双足可提供超高的奔跑速度。

Kolaji has long arms that allow it to grip firearms and weapons. Its legs can provide extremely high running speed.

[注意事项]

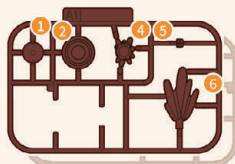

- 本品含有小零件, 请勿让三岁及以下儿童玩耍, 建议使用年龄为15岁以上。
- 组装前请仔细阅读此说明书, 清点板件数量并核对零件有无缺失。
- 部分零件可能会有尖锐或锋利的部分, 请小心使用, 以免造成伤害。
- 磁铁安装时注意磁极方向。
- 参照此说明书各步骤中的零件编号, 用手可将零件取下, 使用模型专用笔刀小心的将水口削掉。

[ASSEMBLY NOTES]

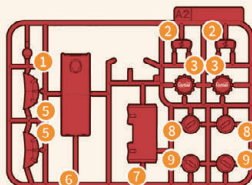

- Small parts are included in this product. The product is designed for children over 15 and is forbidden for those under 3.
- Please read this instruction manual carefully before assembly; Count the number of plates and check whether there are any missing parts.
- Some parts may have sharp or sharp parts. Please use them carefully to avoid injury.
- Pay attention to the magnetic pole direction when installing the magnet.
- Following the part numbers indicated in each step of the manual, remove the parts by hand and carefully trim off the sprue using a dedicated model knife.

打喵棒 CAT TEASER WAND

近战武器“打喵棒”前端的4个爪子可以提供大面积的打击。平时状态下是收纳在机甲背部。

The melee weapon "Cat Teaser Wand" features four claws at its tip, enabling wide-range strikes. In its idle state, it is stored on the mecha's back.

可洛大炮 KOLA CANNON

可以喷射出大威力的可洛液体限制敌人的移动速度，还可以溶化敌人的护甲。

It can spray high-powered Kola Liquid, which restricts the enemy's movement speed and can also melt the enemy's armor.

支架与地台
BRACKET AND DIORAMA BASE

支架内置磁性组件，地台表面采用金属台面设计可实现稳定磁吸连接，提升装配便捷性与场景固定效果。

The bracket is built with a magnetic component, while the model platform features a metal surface design. This enables a stable magnetic connection, enhancing assembly convenience and securing the setup firmly in place during use.
